# U-PICK GUIDELINES

**As one of the first u-pick orchards in Michigan,  
we pride ourselves on offering the freshest produce around.**

**Enjoy the outdoors and experience picking the  
freshest fruits and vegetables straight from the source.**

---

- Please, no picnicking or outside food.
- All in-season fruits and vegetables will be marked.  
Only pick produce in designated marked areas.
- Do not pick blossoms or unripe produce. Customers will  
be charged \$5/lb. for any produce that is not in season.
- You may sample the produce in the field at your own risk.  
Produce should be washed prior to eating.
- Please do not climb on any trees or damage any crops.
- Please do not throw produce.

## APPLE FACTS

---

-  Michigan ranks third in apple production in the USA.
-  One bushel of apples makes 14-18 quarts of applesauce.
-  There are approximately 25 apples in one gallon of cider.
-  Apple trees take 4-5 years to produce their first fruit.
