CHILDREN'S ACTIVITIES

Scheduled Events

Appleseed Camp:

Corn & Straw Lesson: Learn about the different types of corn grown on farms and the many ways corn is used—from food to livestock feed! Kids will also discover the difference between straw and hay and their role on the farm. Everyone gets to take home their own mini bundle of corn kernels and straw from Blake's!

Sunflower Planting: Dig into the basics of planting and why sunflowers are so special to farms and nature. Each child will have the opportunity to pot their own sunflower seed in the Orchard Square Tent, then take it home to watch it grow!

Chicks & Bunnies: Get up close with some of Blake's cutest farm animals. This hands-on experience lets kids meet, pet, and learn about our furry friends, chicks and bunnies. A fun introduction to animal care and farm life!

Bugs on Wheels: Nadia, the bug lady, will share her passion with both children and adults so that they can better understand and appreciate how amazing, important, and not-so-scary these creatures really are.

REPCO Wildlife: Michigan's premier wildlife and reptile show promotes Research, Education, Propagation, Conservation and Outreach (REPCO) and a chance for children to learn and interact with the animals during this Reptile Adventure.
